

ITP Research Symposium 2022

The 2022 ITP research symposium will be held at Te Rau o te Huia (SIT Centre for Creative Industries) from 13:00 on Wednesday 30th November to 12:05 on Friday 2nd December. There will be up to three talk sessions and one Research Community of Practice panel session running in parallel. To allow time for questions and speaker changeover, the programme allows 20 minutes for 15-minute presentations, and 7 minutes for 5-minute in-person presentations.

Pre-recorded talks will be presented in four dedicated sessions. Individual pre-recorded talks and sessions are linked in the programme below, and a full playlist of all talks is [available here](#).

A map of Te Rau o te Huia is provided at the end of this document. The four main presentation locations for the symposium are:

- The main Church lecture space (JG20)
- Performance Studio One (JG16)
- The Green Screen Room photo studio (JG02)
- The Multimedia Room (J205)

The first three spaces are on the ground floor, and the multimedia room is on the second floor accessible from the ground floor Foyer via stairs or a lift.

Wednesday 30th November

13:00

Mihi Whakatau & Lunch

Church (JG20)

Welcome to the symposium from Raniera Dallas and Daryl Haggerty, followed by lunch.

Registration will be available from 12:00 in the Foyer of Te Rau o te Huia.

14:15

Keynote 1

Church (JG20)

“Maoris are plentiful at Bluff” Awarua and Kai Tahu continuities

Michael Stevens

Speaker Biography: Dr Michael Stevens is a freelance Ngāi Tahu historian raised in Bluff. Previously a Senior Lecturer in Māori History at the University of Otago, he now works with and for various Ngāi Tahu institutions, including the Archive Team at Te Rūnanga o Ngāi Tahu. Michael’s work spans

cartography, literacy, maritime history, and historiography. He has explored the immense importance of seafaring and marine mobility for Southern Māori and Māori-Pakeha, not just for subsistence or economic reasons but pervasively through family and social life, traditions and relationships.

15:00

RCoP: Health & Wellbeing

Church (JG20)

Panel Members: Johanna Rhodes (Southern Institute of Technology), Paul Woodruffe (Unitec), Phil Handcock (Otago Polytechnic), Kesava Kovanur Sampath (Wintec), Anita Jagroop-Dearing (Eastern Institute of Technology).

Built Environment 1

Performance (JG16)

End of Symposium

Research Communities of Practice: Suggested Session Structure

Research Communities of Practice have recently been established across Te Pūkenga to build connections between staff who work in similar areas, with the aim of building capacity, support, and opportunities for those engaged in research.

The RCoP sessions at the symposium are intended to facilitate discussion and collaboration as these communities develop. Anyone interested in the field is encouraged to attend and contribute their perspective. Panellists will guide each session, leading and moderating discussions between all attendees.

RCoPs are led collectively by their members, so the panel and attendees are free to set the session style and direction. However, we recommend that discussions cover some or all of the following areas:

- 1) **Introduction:** Briefly introduce the panel members and any current activities of the RCoP. For some RCoP this may be the first formal meeting, but others may have begun to establish members and actions already.
- 2) **Research Aims and Focus:** Discuss the scope of the RCoP, and establish the current focus and objectives of the group.
- 3) **Membership:** How to ensure those working in the field across Te Pūkenga are aware of the RCoP and have opportunities to join and contribute.
- 4) **Development:** Activities the group might be interested in pursuing, for example developing a database of expertise, organising a Meet and Greet, conducting a 'horizon scan' for the field, or creating an action plan.
- 5) **Research Groups and Centres:** What clusters of research expertise already exist in ITPs across the network? What new clusters could be formed as Te Pūkenga unifies?
- 6) **Collaboration & Funding:** Are there current or future opportunities for collaborative research projects and/or joint funding applications that can be identified?

We also recommend that one attendee takes notes on attendance and on the discussion, for the benefit of those RCoP members not able to attend.
